- OptimalTEMP technology, no burns guaranteed
- Safe carry lock for safe and easy transport

*On all ironable garments (this one is connected to No burns guaranteed claim)

Highlights

Auto-shut off

Auto-shut off to save energy and for peace of mind

Easy descaling

It's easy to maintain your steam generator with Smart Calc Clean, our built in descaling system. It will remind you when it's time to descale and includes a container to make descaling easy and safe. Since it is reusable you will save money and never need to buy extra cartridges.

1.8L detachable water tank

A 1.8-liter transparent tank gives you up to 1.5 hours of continuous use. See clearly how much water is left and refill easily at any time under the tank through the large filling door.

Compact and convenient

Thanks to its compact size it's light and easy to handle as you iron your clothes. It even fits on your ironing board. But don't think smaller means less powerful. Thanks to our exclusive ProVelocity technology, we've made powerful steam generators that are lightweight and more compact than ever.

Powerful steam

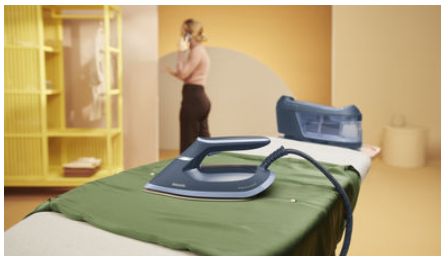

Strong, continuous steam for effective crease removal of even the most stubborn creases on the thickest fabrics.

SteamGlide Advanced soleplate

Philips' Solgel 4.0 technology uses Advanced Nano-Titanium layer which provides superior gliding performance on all garments, while ensuring a comfortable ironing experience with its light-weight soleplate.

OptimalTEMP

With OptimalTEMP technology you achieve great results with one ideal temperature setting. We guarantee this iron will never cause burns to any ironable fabric when it is left unattended. You can safely leave it resting on your clothes or ironing board.

Safety carry lock

Lock your iron securely to the base station for easy carrying around the house and to reduce the risk of accidentally touching the hot soleplate.

Specifications

Technology

ProVelocity steam engine: Yes
OptimalTEMP technology: Yes

Easy to use

Drip Stop: Yes
Tap water suitable: Yes
Detachable water tank: Yes
Precision steam tip: Yes
Refill any time during use: Yes
