

More flavours to savour

Thanks to the 800 SteamBoost oven, it's easy to make the most of flavours. Our multifunction oven lets you add steam on separate levels. Two functions combine steam and heat for baking and roasting, while one function uses just steam – ideal for vegetables and fish.

Product Benefits & Features

Steamify®, your steam assistant

Our Steamify® function makes creating delicious dishes even easier. Enter the cooking temperature that you would usually use and the oven automatically adjusts settings, meaning your food is steamed to perfection. For healthier, tastier food, meet our steam expert.

Delicious meals made easy with connectivity

Experience true cooking assistance with Connected Cooking. Remotely set and change the time and temperature of the oven. Enjoy the convenience of controlling the cooking progress even from outside of the kitchen.

Precision cooking with our Food Sensor

Thanks to our Food Sensor, you can achieve perfect results every time. It lets you monitor the cooking process by measuring the core temperature of the food. It will even let you know when your food has been cooked to the desired temperature and stop cooking.

EXCite+ Touch Display, for expert assistance

Our EXCite+ Touch Display provides an intuitive experience, giving you greater control over your oven. Scroll through menus of food categories, from meats and fishes, to desserts and sweets. And enjoy perfectly cooked dishes, every time.

Save time with the Fast Heat Up function

Our Fast Heat Up function makes sure the oven is ready when you are. With a shorter pre-heating time compared to conventional heating, you can turn those spare moments into more memorable meals.
